

English

In English our focus text is 'Ice Trap' which is written by Meredith Hooper. This is a non fiction story about Sir Ernest Shackleton's expedition to the Antarctic.

Fiction

Using this text, we are working towards writing the build-up and dilemma element of a story.

Non-Fiction:

We will be working on developing our persuasive writing skills.

Science

Our topic in Science this term is Earth and Space where children will describe the movement of Earth, and other planets, relative to the Sun in our Solar System.

Maths

For Term 2 we will be focusing on multiplication and division using both mental and formal written methods.

We will also be looking at factors, multiples and prime numbers.

Please continue to encourage your children to practice their times tables as this will support them with this.

Class: Leeds and Aston Term 2

Topic

This term, we are continuing our topic on the Victorians and this will be incorporated in all areas of the curriculum as much as possible.

In Geography, we will be looking at Shackleton's famous expedition and using our compass skills to map our own routes.

Enrichment/Other

The children will be undertaking a 'Victorian Experience' where they will be able to understand what life was like for Victorian children.

P.E.

P.E this term will be held on a Wednesday afternoon and will be led by a PE specialist from William Parker School. This will be a longer session than normal. Please ensure your children have their PE kit in school.

Jumpers should now be worn.

Music

Children will be using the 'Charanga' music programme to look at modern rock and pop music.

Homework

Thank you for your continued support with homework. Homework will continue to be issued on a Friday. However, we will not be expecting homework to be handed in until the following Thursday. This will allow those children who attend homework club (on a Wednesday evening) to be able to complete it in time.
